

SAO PAULO AND MINAS GERAIS

SUMMARY- Mostly dry during the past 24 hours. Temperatures averaged near to above normal yesterday.

FORECAST-

TODAY...Mostly dry. Temperatures average above normal.

TONIGHT...Mostly dry at night.

TOMORROW...Mostly dry. Temperatures above normal.

OUTLOOK...Scattered showers may reach west and south Sao Paulo Friday and Saturday. Dry elsewhere in the region during this time. Monday dry Sunday. Temperatures average above normal.

BRAZIL COFFEE PROSPECTS...

Mostly favorable conditions for harvest during the next 5 days. More rain will be needed during the coming months to support flowering of the new crop. Showers later this week, if they occur, would be favorable.
